OPTIONAL ITEMS:

Part No.	Description
52-9540	Stock 29x29 coupler
716044-D	GEAR-INPUT DODGE NP205 29 MALE SPLINE

Stock 29 spline coupler 52-9540. Original application 1989-93 Dodge Getrag 360 5-speed

Dodge 29 spline fig 8 adapter Chrysler # 4505305 (uses larger 6210 bearing)

NOTE: This adapter is a stock replacement. If you are using it as an adapter to combine a later version Dodge that was never coupled to a NP205, you may be required to shortend the transmission output shaft as well as the stock coupler. The transmission output shaft should be flush with the transmission adapter. The coupler should match the spline length of what you have left after the shaft is shortend.

SPECIAL NOTE: The components packaged in this kit have been assembled and machined for specific type of conversions. Modifications to any of the components will void any possible warranty or return privileges. If you do not fully understand modifications or changes that will be required to complete your conversion, we strongly recommend that you contact our sales department for more information. This instruction sheet is only to be used for the assembly of Advance Adapter components. We recommend that a service manual pertaining to your vehicle be obtained for specific torque values, wiring diagrams and other related equipment. These manuals are normally available at automotive dealerships and parts stores.
